

wants

enjoyable interior

space saving designs/innovation

cooking - full, quick prep kitchen

3d printer setup

projector screen

wet object drying system (wetsuits, snow etc)

mini workshop area

Lower living Costs

1. **Nil Rent**

Reduced \$ utilities (lighting, water, gas)

Nil Mortgage (stuck to one location + extra payments)

Passive Income from tenants

umm, FUN!

1. see if a **youtube** channel can be made from the process

Experiments! = morecuriosity/playfulness

- interior design shifts
- self growing food
- thermal performance
- Soldier fly toilet
- graffiti art wall
- passive cooling/heating
- DIY everything
- Led Screen

I like teaching
= sharing skills creatively
= more empathy
= better perspective
= better attitude
= healthier me.

Challenge myself = fun.

why + motivations

pragmatisms

clean + open living space

floor drainage in case of flooding

designed for 2.5 poeple.

workstation pc storgae

rooftop access

use magnetism on wall

oven

water collection

shower base as bath

single skylight across deviding wall

no bigger than 20 feet

lininen storage

hidden/ safety storage

washer/dryer

Awesome Quality Life

1. **Feeling accomplished + connected to my home.**

ample Space to store adventure gear.

recylced, repurposed build materials

music gear setup

space to entertain

Potential to earn income passively = support myself = support others.

Change location depending on my hobbies/interests.

living in amazing spots

less possessions = more meaningfull decisions

potential to find design/products that assist others.

Thinking Ahead

1. Independence from society, > opportunity to **altertenative life.**

Reduce Environmental Impact

Farming. Planning to live on / purchase land at later date =closer to nature

sealable for shipping overseas

Community Living = trading skills/knowledge

Adaptation and flexibility for future personal and environmental challenges.

Youtube, curious to have first hand experience at developing community.
